Yanny in Betrieb nehmen

Um Yanny in Betrieb nehmen zu können sind folgende Schritte erforderlich:

1. Batterie laden
2. Yanny einschalten
3. Die entsprechende Software (ZBOS Control) zur Steuerung installieren

Batterie laden

chargerobin

Image not found or type unknown

1. Connect the power-adapter to the wall socket
2. Connect the type-C USB-cable to the power-adapter
3. Connect the USB-cable to the plug on the back of Robin

Charge indicator

The LED on the mouth of Robin will show the status of the battery.

While Robin is powered down

| | |
|------------------------|--|
| Flickering red light | Robin is charging (Robin battery < 50%). |
| Flickering green light | Robin is charging ($50\% \leq$ Robin battery < 100%). |
| Constant green light | Robin is off and fully charged. |

| | |
